

Serger Mask

- Supplies Needed
 - 1) 8x8 Cutaway
 - 2) 8x8 T-Shirt squares (or 1 100% cotton, and 1 T-Shirt square)
 - 2) 8x8 Dream Weave Ultra, fused to the back of T-Shirt (and or Cotton) squares
 - T-Shirt hem (trim just above stitching) or 1/8" elastic
 - Erasable Marking Pen
 - Straight Pins
-
- Note* if you don't have a serger, you can do this with a regular sewing machine, use a zig zag or stretch stitch with a walking foot

Layer and sandwich together the following

Bottom layer T-shirt square with Dream Weave Ultra facing up

Next layer Cutaway

Next lay T-Shirt square with Dream Weave Ultra facing down

Top Layer
T-Shirt with Dream Weave facing down

Middle Layer
Cutaway

Bottom Layer
T-Shirt with Dream Weave facing up

Serger the “sandwich” together

Mark the measurements shown,
starting from the bottom edge

Use a chain stitch and stitch on the lines you just marked

Note* if your serger does not do a chain stitch use a straight stitch on a sewing machine, and a walking foot

Bring the first 1" line to match the 2" line you have stitched

This will form a pleat on top (the side with the markings) if the pleat does not look like the picture, redo it so the pleat is on the top

Pin in place

Measure from the folded pleat edge and mark 1" line

Pull the line you just marked down to the stitched line

This will form the 2nd pleat and pin in place

Measure from the folded pleat edge and mark 1" line

Pull the line you just marked down to the stitched line
This will form the 3rd pleat and pin in place

Chain stitch the pleats in place

*note, or baste in place with
sewing machine using a
walking foot

Trim T-Shirt hem just above
the stitches

Cut hem into 2 – 7" long
pieces

Place T-Shirt hem
with the fold to the
inside and serge into
place

Repeat for other side

Please know that color thread was used so you could see the stitching in the instructions, you should use matching thread colors

Use cotton on top and T-Shirt on the bottom layer, and the serger or walking foot will keep it from stretching
